Adaptive Administration of WebSphere Application Server V4.x DVL (Advanced Edition)	Using Struts for Web Application Development with WebSphere Studio
Administration of WebSphere Application Server V5 (Advanced Edition) (DVL)	WBI - Implementing Monitor with Business Integration
Administration of WebSphere Application Server V5.1	WBI - InterChange Server 4.2 & 4.2.2 Delta Workshop
Administration of WebSphere Application Server V5.1 (AIX)	WBI - Introduction to WBI and Adapter Development
Administration of WebSphere Application Server V5.1 (Linux)	WBI Server - Advanced Topics on InterChange Server
Administration of WebSphere Application Server V6	WBI Server - Implementing InterChange Server and Toolset (remote classroom)
Administration of WebSphere Application Server V6 (AIX)	WBI Server - InterChange Server Deployment Workshop
Administration of WebSphere Application Server V6 (Linux)	WBI Server - Introducing InterChange Server and Toolset
Advanced Administration - WebSphere Application Server v5(Multi-platform Course)	WBI Server Foundation - High Availability Tuning and Administration
Advanced DataStage for Enterprise Edition	WBISF V5.1 for z/OS Implementation Workshop
Advanced DataStage for Server Edition	Web Services Development Using WebSphere Studio Application Developer V5.1
Advanced Java Programming with Distributed Objects	Web Services Development with IBM Rational Application Developer V6
Advanced Java Programming with Distributed Objects Using WebSphere Studio V5.1	WebServices for J2EE Developers Using WebSphere Application Server V5
Advanced Transformation Techniques (DS TX)	WebSphere 5.1 Administration
Advanced Web-to-Host Application Integration using IBM WebSphere HATS V5	WebSphere Adapters - JCA Adapter Development
Application Design with WebSphere MQ	WebSphere Administration 4.0
Application Development using IBM WebSphere Studio V5.1 UML Visual Editor	WebSphere Application Server Administration - Install and Config for iSeries
AuditStage Essentials	WebSphere Application Server for z/OS V5 Implementation
Build a Model Driven Solution using WBI and Rational Tools	WebSphere Application Server Transitioning to Version 5.0 for Administrators
DataStage Essentials for Enterprise Edition	WebSphere Best Practices Mentored Workshop
DataStage Essentials for Mainframe	WebSphere BI - WebSphere Product Center Workshop
DataStage Essentials for Server Edition	WebSphere BI Adapters - Adapter Development
DataStage USS Edition Essentials	WebSphere BI Adapters - Adapter for mySAP.com
Deploying and Managing Systems for Event Server (DS TX)	WebSphere BI Connect - Implementing Connect
Deploying WebSphere Centric Products on Linux for zSeries	WebSphere BI Toolset - Advanced Cross-Referencing
Designing Systems for Event Server (DS TX)	WebSphere BI Toolset - Advanced Mapping
DEV395: Essentials of Rational Application Developer for WebSphere Software	WebSphere Business Integration - ICS System Administration
Developing and Testing OO Applications with Java Using Eclipse	WebSphere Business Integration - Implementing InterChange Server and Toolset
Developing and Testing OO Applications with Java Using WebSphere Studio V5.1	WebSphere Business Integration - Introduction to Integration Workbench
Developing EJBs with IBM Rational Application Developer V6.0	WebSphere Business Integration - Message Broker V5.0 Delta Workshop
Developing Web Applications with IBM Rational Application Developer V6	WebSphere Business Integration - Model MQ
EJB Development using WebSphere Studio	

Application Developer V5.1
 Enterprise Java with WebSphere Studio Application Developer (WSAD)
 Enterprise Service Bus Solutions using WebSphere Application Server V6
 Essentials of Web Services Development using Rational Application Developer V6
 Fast Track to WebSphere Studio Application Developer V5.x (WSAD)
 Federated Database with WebSphere Information Integrator: Up and Running
 Fundamentals of Data Transformation (DS TX)
 Generating and Integrating XML Content with DB2
 Global Data Synchronization (Supply)
 IBM Complete WebSphere MQ Essentials Curriculum - 1 User
 IBM Global Data Synchronization for WebSphere Product Center - Demand-Side Tools
 IBM Global Data Synchronization for WebSphere Product Center - Supply and Demand
 IBM Global Data Synchronization for WebSphere Product Center – Supply-Side Tools
 IBM WebSphere Application Server v5.1 Administration - Network Deployment Edition
 IBM WebSphere Everyplace Mobile Portal V5.1 Portlet Programming
 IBM WebSphere MQ - What's New in V6.0
 IBM WebSphere MQ Administration Curriculum - 1 User
 IBM WebSphere MQ Programming Curriculum - 1 User
 IBM WebSphere MQ Security
 IBM WebSphere Portal V5.0.x Application Development Using the IBM Portlet API
 IBM WebSphere Portal V5.1 Application Development Using JSR 168
 IBM WebSphere Portal Version 5 Fundamentals
 IBM WebSphere Portal Version 5 Security
 IBM WebSphere Portal Version 5.02 Administration
 IBM WebSphere Portal Version 5.02 Installation and Deployment
 IBM WebSphere Portal Version 5.02 Installation, Deployment, and Administration
 IBM WebSphere Portal Version 5.1 Administration
 IBM WebSphere Portal Version 5.1 Installation and Deployment
 IBM WebSphere Portal Version 5.1 Installation, Deployment, and Administration
 IBM WebSphere Portal Version 5.1 Product Update
 IBM WebSphere Product Center - Advanced Deployment Workshop
 IBM WebSphere Product Center - Advanced Scripting
 Implementing ESB Solutions using IBM WebSphere Products
 Implementing XML Solutions with DS TX
 Integrating Using WebSphere BI Server Foundation
 Workflow Using Workbench V4.2.4
 WebSphere Business Integration Adapter Development - Introduction
 WebSphere Business Integration Adapter for mySAP.com - Introduction
 WebSphere Business Integration Adapters - Using Adapters with Message Broker
 WebSphere Business Integration Adapters with WebSphere MQ Integrator Broker
 WebSphere Business Integration Broker Message Repository Manager (MRM) Workshop
 WebSphere Business Integration Collaboration Development - Introduction
 WebSphere Business Integration for Financial Networks: Concepts and Components
 WebSphere Business Integration for Financial Networks: Operations Workshop
 WebSphere Business Integration for Financial Networks: Planning Workshop
 WebSphere Business Integration Functional Overview
 WebSphere Business Integration Message Broker V5, Writing Effective ESQ
 WebSphere Business Integration Message Brokers: Administration
 WebSphere Business Integration Modeler - Model, Analyze, and Report Using V5.X
 WebSphere Business Integration Modeler - Modeler V5.x Workshop
 WebSphere Business Integration Server - Core Technology
 WebSphere Business Integration Server - Performance on the InterChange Server
 WebSphere Business Integration Server Foundation Administration
 WebSphere Business Integration Toolset - Collaboration Development
 WebSphere Business Integration Universe
 WebSphere Business Integration V5 Broker System Architecture and Design Workshop
 WebSphere Business Integration V5 Brokers Workshop
 WebSphere Commerce v5.6 Implementation
 WebSphere Custom Class
 WebSphere Custom Class Advanced
 WebSphere Custom Class Intermediate
 WebSphere Federated Database Performance, Tuning, and Advanced Topics Workshop
 WebSphere for z/OS V6 Implementation Workshop
 WebSphere II Classic Federation for z/OS Implementation Workshop
 WebSphere Information Integrator Content Edition: Up and Running
 WebSphere Information Integrator Federated Workshop
 WebSphere InterChange Server and Toolset -

Integrating Using WebSphere BI Server Foundation (Remote Classroom)	Introduction
Integrating Using WebSphere ID and Process Server (remote classroom)	WebSphere J2EE Development Blend for the Java Developer
Integrating Using WebSphere Integration Developer and Process Server	WebSphere Message Broker V6 Application Programmer Workshop
Integrating Using WebSphere Integration Developer and Process Server II	WebSphere MQ Advanced System Administration (Distributed Platforms)
Introduction to Building Web-to-Host Solutions using IBM WebSphere HATS V5	WebSphere MQ Application Programming (AIX)
Introduction to Java for OO Developers Using Eclipse	WebSphere MQ Application Programming (Sun Solaris)
Introduction to Java for OO Developers Using WebSphere Studio V5.1	WebSphere MQ Application Programming (Windows)
Introduction to Java using IBM Rational Application Developer V6	WebSphere MQ Application Programming (z/OS)
Introduction to Java using IBM WebSphere Studio Application Developer V5.1.1	WebSphere MQ Application Programming Using Base Classes for Java
Introduction to OO Java Development for Procedural Developers Using Eclipse	WebSphere MQ Debugging Techniques (z/OS)
Introduction to OO Java Development for Procedural Developers Using WS Studio	WebSphere MQ Debugging Techniques on Distributed Platforms
Introduction to Programming XML and Related Technologies	WebSphere MQ Everyplace, An Introduction
Introduction to WebSphere Information Integrator OmniFind Edition	WebSphere MQ for z/OS System Administration
Java Developer's Guide to Eclipse 3.0 Plug-in Development	WebSphere MQ for z/OS System Administration II
Java for RPG Programmers	WebSphere MQ Integrator Administration on z/OS
Java for Web Application Development	WebSphere MQ Integrator: Programming Nodes and Parsers
Maximizing WebSphere Version 5 Performance on z/OS	WebSphere MQ Programming Using JMS
MQSeries Everyplace Application Implementation	WebSphere MQ Security
Process Choreography with WebSphere Studio App. Dev - Integration Edition V5.1.1	WebSphere MQ System Admin (Windows) Fast Start Plus
Process Choreography with WebSphere Studio Integration Edition V5.1.1	WebSphere MQ System Administration (AIX)
Programming XML and Related Technologies for Java	WebSphere MQ System Administration (Sun Solaris)
Security Workshop: WebSphere Application Server for z/OS	WebSphere MQ System Administration (Windows)
Servlet and JSP Development using WebSphere Studio Application Developer V5.1.1	WebSphere MQ System Administration (iSeries)
Servlet and JSP Development using WebSphere Studio Application Developer V5.1.1	WebSphere MQ Workflow Basic Tailoring
Servlet and JSP Development with Rational Application Developer V6 SPVC	WebSphere MQ Workflow for z/OS Technical Workshop
Servlet and JSP Development with Rational Application Developer V6 SPVC	WebSphere MQ Workflow Introduction and Overview
Servlet and JSP Development with Rational Application Developer V6.0	WebSphere MQ Workflow Modeling
Servlet and JSP Development with Rational Application Developer V6.0	WebSphere MQ Workflow Modeling Using the Websphere Business Integration Modeler
SQL Replication Mini-Curriculum	WebSphere MQ Workflow Web Client and API
SQL Replication: Advanced Topics	WebSphere MQ: Designing and Architecting Clustering Solutions
Technical Introduction to WebSphere MQ	WebSphere Partner Gateway - Implementing Partner Gateway
Transition to IBM Rational Application Developer for	WebSphere Partner Gateway - Introduction
	WebSphere Partner Gateway Express - Introduction
	WebSphere PC - Implementing WebSphere Product Center
	WebSphere Performance Tools and Methodology Workshop
	WebSphere Portal Development Blend for the Procedural Developer
	WebSphere Portal Server V5.02 Programming
	WebSphere Portal Server V5.1 Programming

WebSphere Software V6
Transition to IBM WebSphere Application Server V6
for Administrators
Understanding WebSphere Process Server and
WebSphere Integration Developer
Using Enterprise Generation Language in IBM
WebSphere Studio V5.1.2
Using Q Replication
Using SQL Replication - DB2 and Heterogeneous
Databases

WebSphere Product Center Deployment Workshop
WebSphere Product Center Functional Overview
WebSphere Product Center Technical Overview
WebSphere Scripting and Automation
WebSphere Studio Application Developer V5 -
Hands-on Overview
WebSphere Studio Application Developer V5.0 for
J2EE Developers
WebSphere Technical Enablement for iSeries
Workshop
